

# Electric Bikes

## Electric Bikes

Electrify your ride with our pedal-assist technology so you can go further, more easily and arrive feeling fresh as a daisy! Our E-Bikes are the perfect companion for your daily commute or a scenic roll along the bike path. The pedal-assist functionality does all the hard work, so whatever your fitness, they're a breeze to ride. Our upright-riding, low step-thru design, includes full fenders, clothing guards and chain guards so you can get on and enjoy riding in any outfit. Lights powered by the electric bike battery and custom saddle bags just add to the practicality.
